

SALSA SAVER

SALSA PRESERVATIVE

*More Mexican Food Solutions
from Chem-Mex Ind., Inc.!*

DESCRIPTION:

SALSA SAVER is a readily dispersible liquid blend of preservatives recommended for salsas and other products with a pH below 4.6. Salsa Saver prevents fermentation and inhibits the growth of many mold, yeast and bacteria strains in low pH food products.

USE LEVEL:

Use 2 to 4 ounces maximum for 25 lbs. of salsa or 0.5% to 1.0% max Salsa Saver.

PROPERTIES, PACKAGING AND STORAGE:

Appearance:

Clear, yellow brown liquid

Packaging:

- 1 gallon
- 5 gallon pail
- 55 gallon. Drum
- 275 gallon Tote Bin

Storage:

Store away from sun light and excessive heat. Keep containers sealed to avoid contamination & spillage.

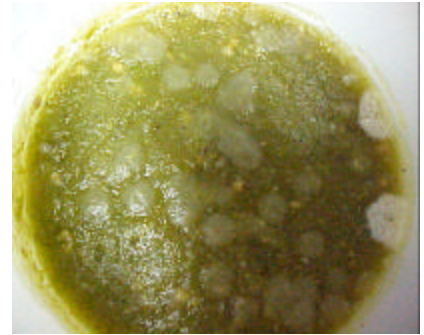

FDA CLASSIFICATION

The components of Salsa Saver are classified by the FDA as ingredients that may be used in foods. All ingredients are GRAS (generally recognized as safe).

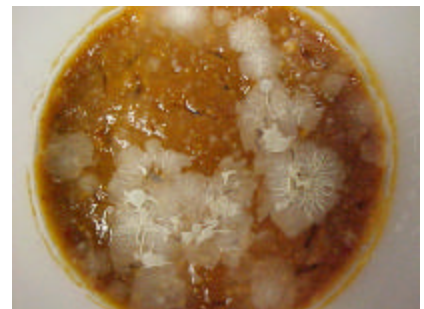

MOLE POBLANO*

SALSA VERDE*

SALSA ROJA*

**Salsa samples were made fresh and stored at room temperature for four days. Pictures were taken on the fourth day. Protected samples had 1% Salsa Saver by weight. Salsa Saver is effective against many yeast, mold and bacteria strains. Shelf life of Salsa protected by Salsa Saver will vary and users should make their own investigations to determine the suitability and safety of their products. Salsa Saver will not make perishable products non-perishable and we recommend that perishable products that contain Salsa Saver continue to be handled and stored as perishable and with appropriate refrigeration. Salsa Saver is intended to increase the shelf life of high acid products like fresh salsas and perishable dressings.*
